NUCLEAR REGULATORY COMMISSION

[Docket No. 50-336]

Northeast Nuclear Energy Company; Notice of Withdrawal of Application for Amendment of Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Northeast Nuclear Energy Company (NNECO) to withdraw its May 8, 1997, application for proposed amendment to Facility Operating License No. DPR-65 for the Millstone Nuclear Power Station, Unit No. 2, located in New London County, Connecticut.

The proposed amendment would have revised the accuracy requirements of the meteorological instrumentation and supporting Bases. Subsequently, by letter dated November 25, 1997, NNECO

withdrew the amendment request based on its determination that the subject instrumentation accuracies can be significantly improved by implementing modifications. It is further indicated that the modifications will result in improving the overall system accuracy such that the existing Technical Specifications for the Millstone Nuclear Power Station, Unit No. 2, will be complied with.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on June 4, 1997 (62 FR 30634). However, by letter dated November 25, 1997, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 8, 1997, and the licensee's letter dated November 25, 1997, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, CT 06360, and the Waterford Library, ATTN: Vince

Juliano, 49 Rope Ferry Road, Waterford, CT 06385.

Dated at Rockville, Maryland, this 16th day of December 1997.

For the Nuclear Regulatory Commission.

Daniel G. McDonald, Jr.,

Sr. Project Manager, Special Projects Office—Licensing, Office of Nuclear Reactor Regulation.
